HOW TO SET-UP YOUR WEIGHT SCALE SETTING
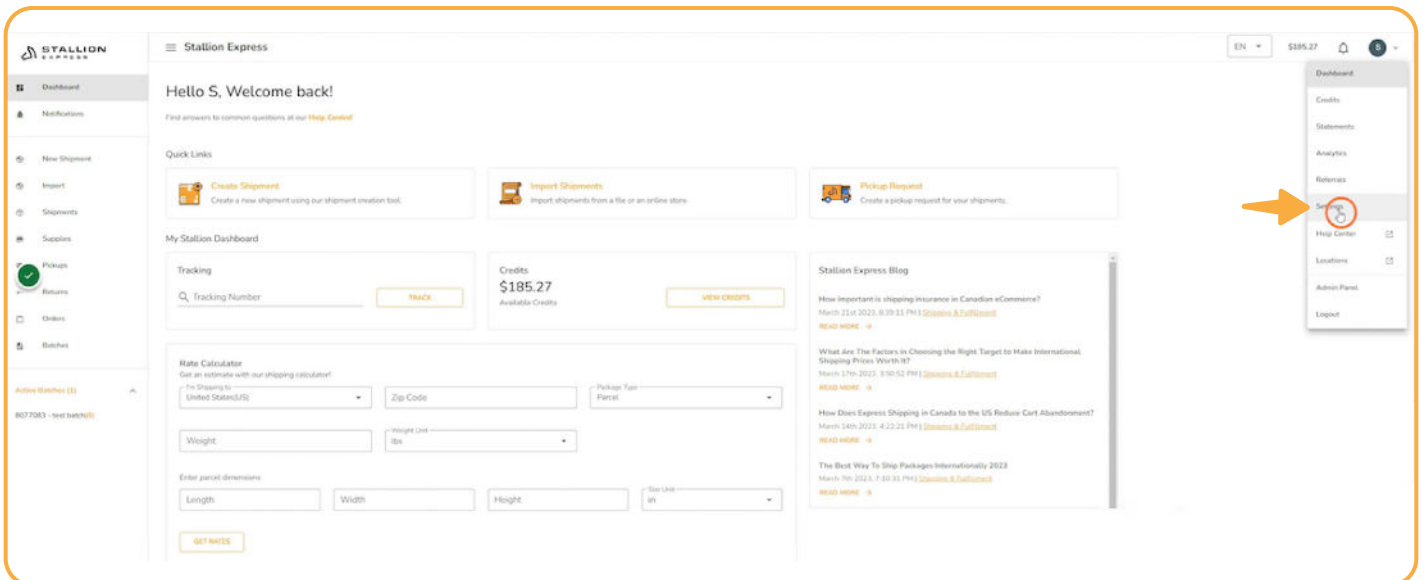

STALLION EXPRESS

STEP 1
From your account, click **your profile icon**.

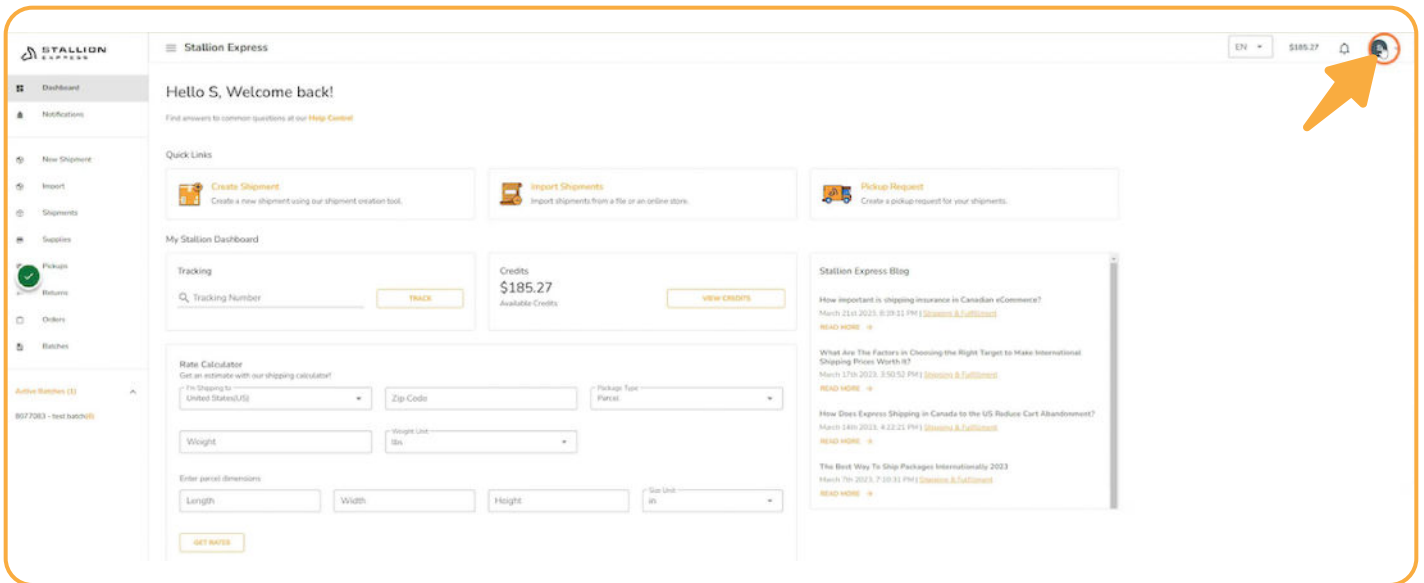

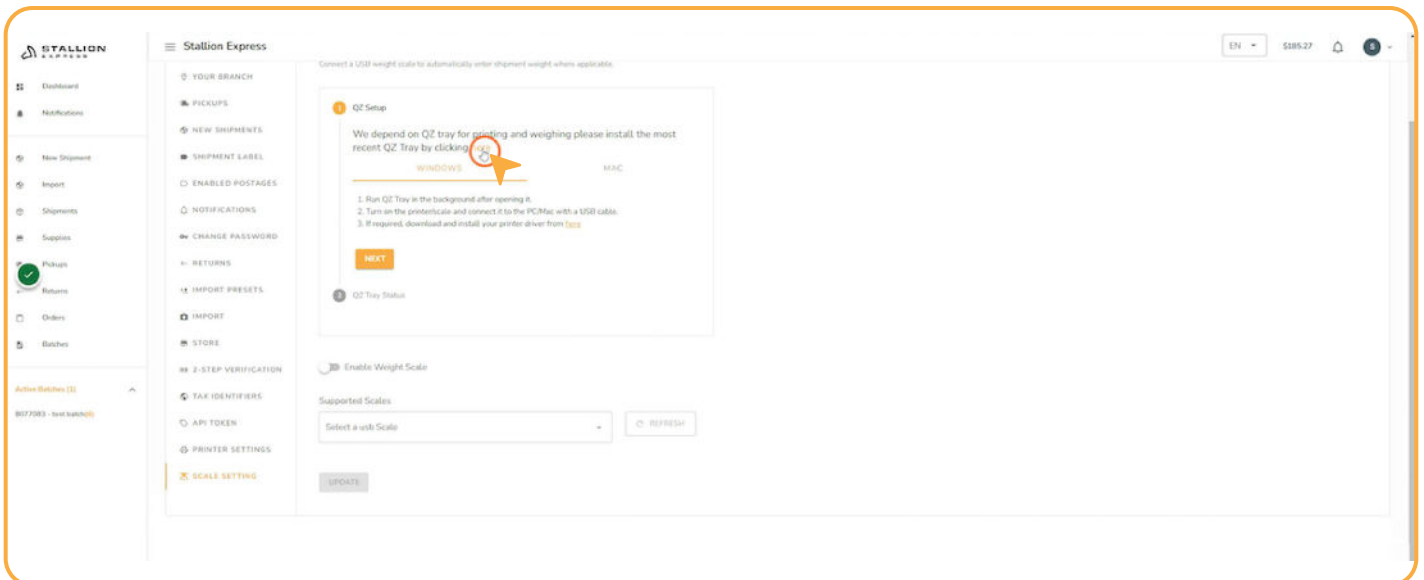

STEP 2
Click **Settings**.
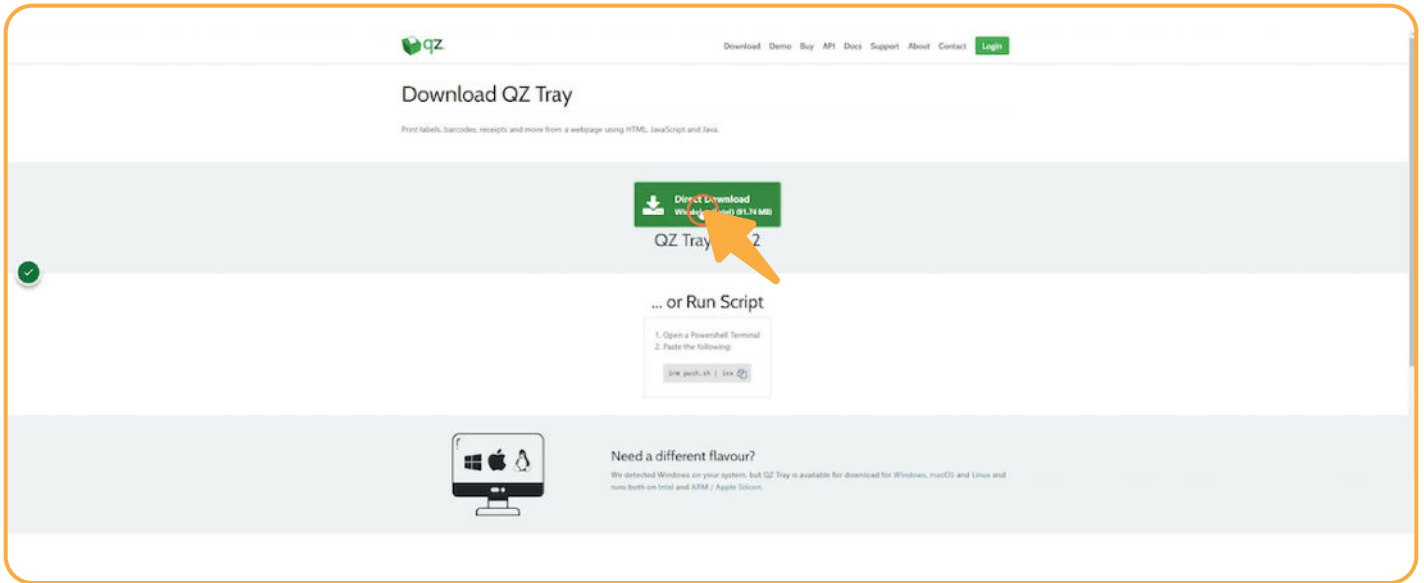

STEP 3
Click **Scale Setting**.

STEP 4
Click **here** to download the most recent QZ Tray.

STEP 5
Download QZ Tray.

STEP 6
Open the file and install.

## STEP 7
Click here to open QZ Tray.

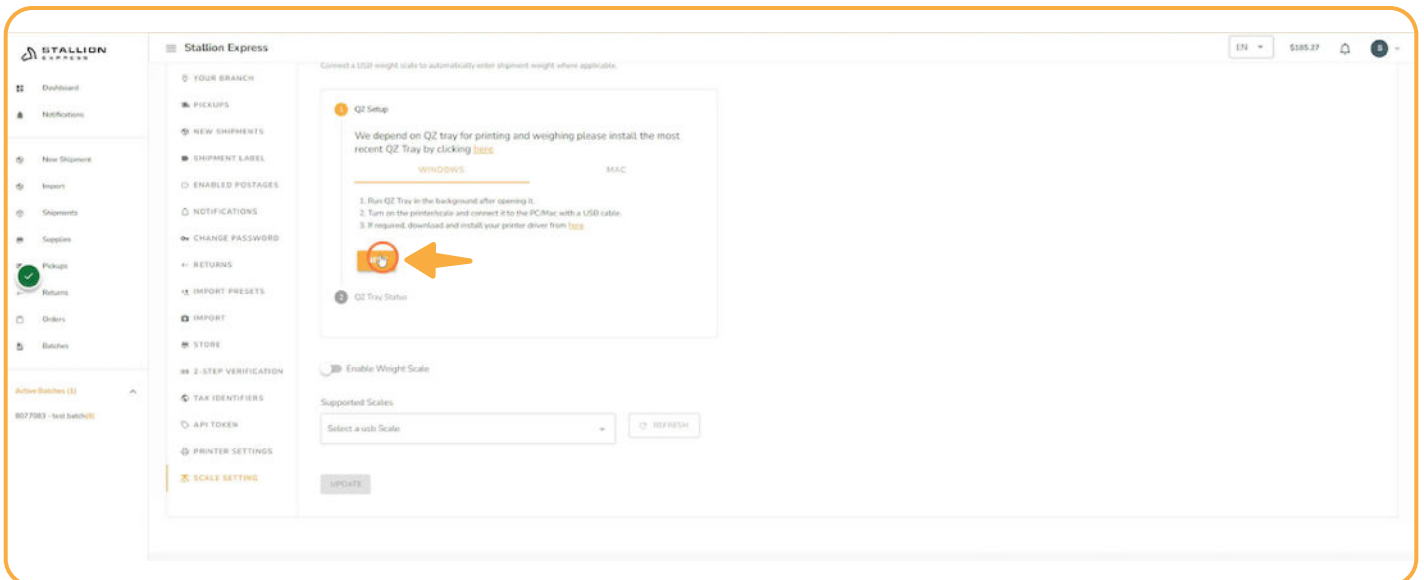

STEP 8
Click **QZ Setup**.

STEP 9
If required, download and install your label printer driver.

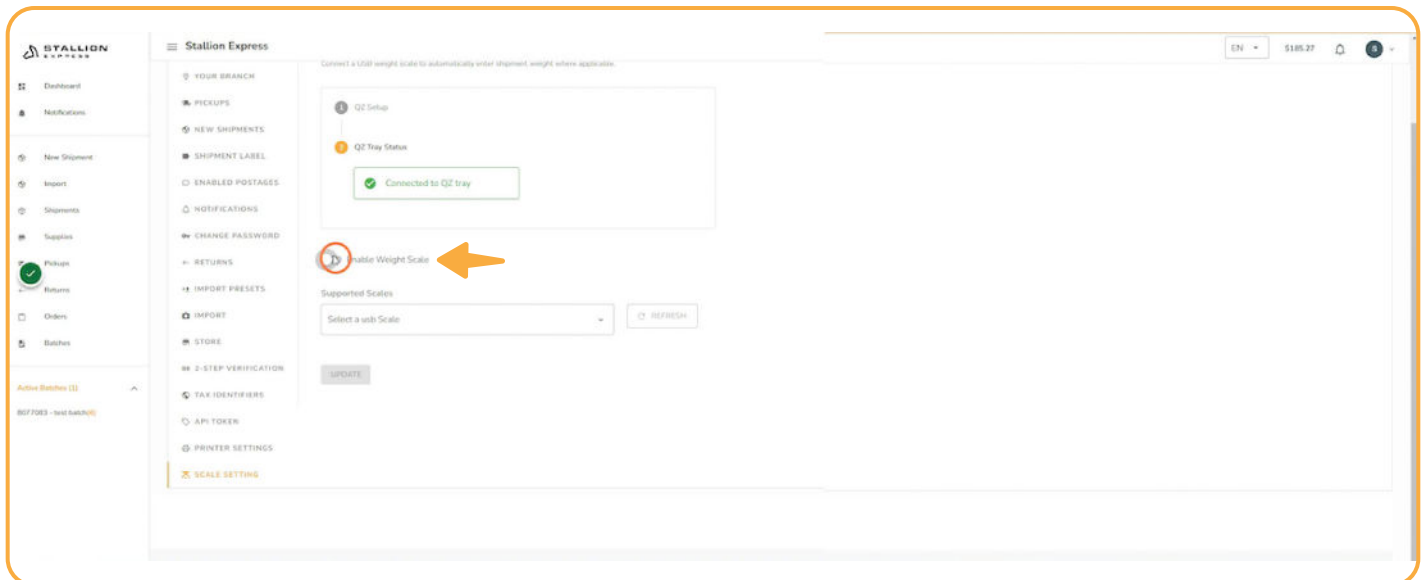

STEP 10
Click **Next**.

STEP 11
Check your QZ Tray status.

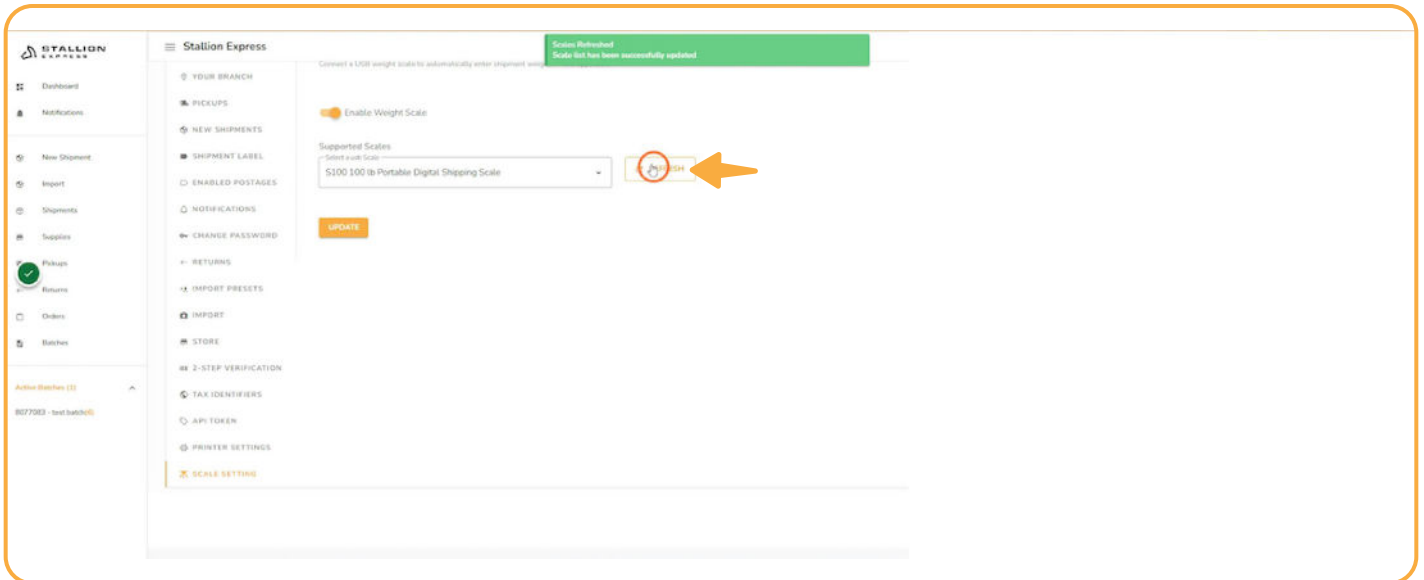

STEP 12
Toggle on to enable your weight scale.

STEP 13
Select your supported scale from the drop-down menu.

STEP 14
Click **Refresh**.
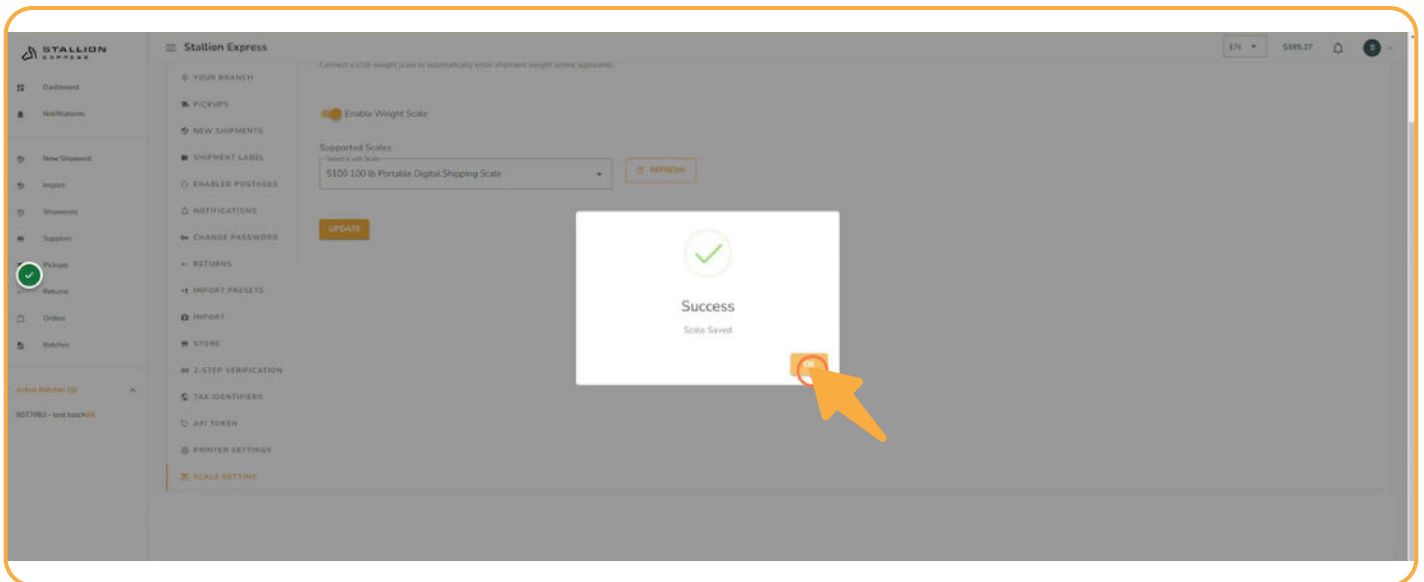

# STALLION EXPRESS

STEP 15
Click **Update**.

STEP 16
Your weight scale is now connected!

STEP 17

Now, let's try this feature on a shipment. Go to the **Shipments** page and select a shipment.

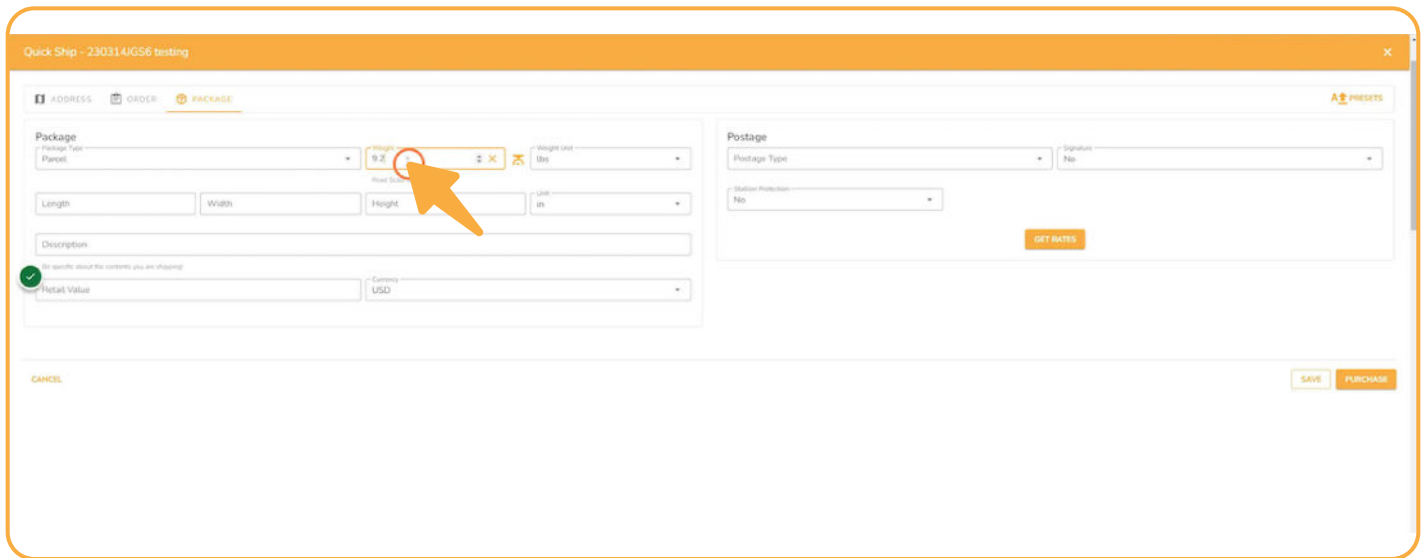

STEP 18

Click **Quick Ship**.

STEP 19

View the weight form field. From here, anything you place on your connected weight scale will reflect in this form field as the inputted weight.
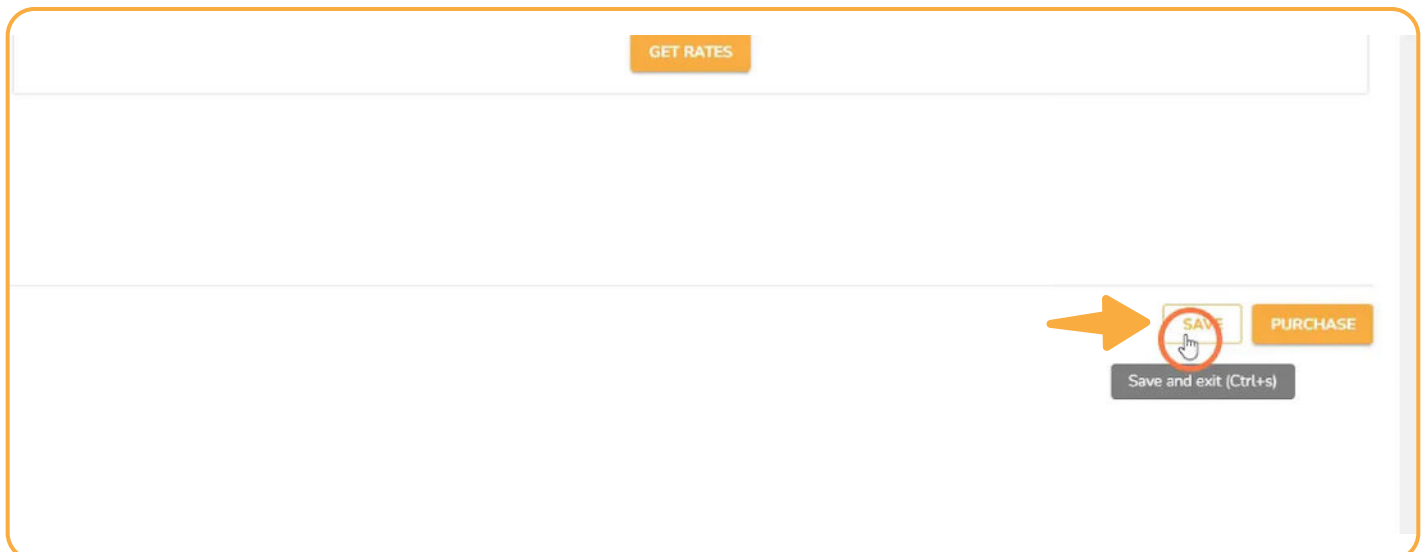

*Tip: If you change the weight unit on your scale, it'll also automatically update on this page as well.

STEP 20

Now, you can either **Save** and exit or **Purchase** your shipping label.
